# Recommended Changes to F-1

| # | Changes Made to F-1 | Reasoning |
|---|---|---|
| 1 | Move Temple City and Arcadia from SD 5 to SD 1 | This unites key COIs in West San Gabriel Valley, keeping the WSGV Cities of Monterey Park, Alhambra, San Gabriel, Rosemead, Temple City, and Arcadia whole. |
| 2 | Move Montebello and Pico Rivera from SD 4 to SD 1 | This connects Montebello and Pico Rivera to similar neighboring COIs in SD 1. |
| 3 | Move Hacienda Heights, Rowland Heights, and Diamond Bar from SD 1 to SD 4, and move Walnut from SD 5 to SD 4. | This consolidates East San Gabriel Valley COIs into a single district, keeping Hacienda Heights, Rowland Heights, Diamond Bar, and Walnut together. |
| 4 | Move Ramona from SD 5 to SD 1. | With Walnut moving to SD 4, Ramona was brought into SD 1 to balance population and connect Pomona to the rest of SD 1. This maintains a contiguous district and unites Pomona with neighboring COIs in SD 1. |
| 5 | Shift the border between SD 1 and SD 3 in Thai Town to make it whole. | Map F-1 splits small part of Thai Town into SD 3, removing it from the majority of Thai Town in SD 1. This is a priority COI that residents want whole. |
| 6 | Extends the border of SD 2 in Koreatown to make it whole. | Map F-1 splits Koreatown into three districts. Most Koreatown is in SD 2, while the northwest corner is cut into SD 3, and the southeast corner is cut into SD 1. These changes make Koreatown whole in SD 2. |
| 7 | Makes Sun Valley whole. | Sun Valley is split between SD 3 and SD 5. This change moves Sun Valley into a single district. |
